Tip of the Month:

When is your birthday? When is your pets birthday? How about your favorite holiday? In order to keep up with annual visits, pick a date of the year that is special to you, and make that your "Pet Check Up Day".

Keeping your pet current with vaccinations and check ups will help prolong your pets health, and help avoid any costly and stressful visits in the future.

Love your pet and it will love you back!

Here are some tips for avoiding mosquitoes:

- 1: Mosquitoes are attracted to things that remind them of nectar or mammal flesh. When outdoors, wear light clothing that covers most of the body, keeping as much skin and hair covered as practical. Avoid bright, floral colors. Khaki, beige, and olive have no particular attraction for mosquitoes.
- 2: They are also attracted by some body odors, and for this reason they choose some individuals over others in a crowd. Avoid fragrances in soaps, shampoos, and lotions.
- 3: Many species of mosquito prefer biting from dusk until dawn. The problem is worse when the weather is hot or humid. Avoid playing outdoors during the peak biting times in your area.
- 4: Try to stay away from still water.
