DEFEND YOURSELF AGAINST WEST NILE

Remember the "Four D's" for the defense against exposure to West Nile virus mosquitoes:

- DUSK/DAWN are the times of day you should try to stay indoors. This is when infected mosquitoes are most active.
- **DRESS** in long sleeves and pants when you're outside. For extra protection, you may want to spray thin clothing with repellent.
- DEET is an ingredient to look for in your insect repellent.
- DRAIN standing water in your backyard and neighborhood – old tires, flowerpots and clogged rain gutters. These are mosquito breeding sites.
