

The Island Way... Let Your Voice Be Heard!

South Padre Island is in the process of updating its plan for the future, "The Island Way – South Padre Island's Comprehensive Plan." This plan is a collective effort between the residents, businesses, the City Council, staff and all associated stakeholders to chart the course for South Padre Island's future growth.

So far, over 430 survey responses have been received! We encourage everyone to participate in this survey. Your input will be an important part of the development of the plan.

Click or scan the QR code to take the survey!

Keep It Green

The Environmental Health Services Department, in conjunction with Republic Services, provides the community with a drop-off location to recycle household items.

The City recycling hours are every Saturday from 8 a.m. to 11 a.m. at the Community Center, located at 4501 Padre Blvd.

Republic Services provides 18-gallon recycling containers to residents that wish to subscribe to the weekly Recycling Collection Program.

To subscribe to the weekly recycling collection, call Republic Service customer service at: (956) 392-7017.

Council Highlights

Brownsville South Padre Island International Airport Director Bryant Walker updated the City Council with the announcement that United Airlines will begin a new nonstop service between Brownsville and Chicago, Illinois this fall.

Cameron County Regional Mobility Authority Executive Director Pete Sepulveda updated the City Council on the second causeway, saying that the environmental study was nearly complete.

Kimley-Horn Vice President Tom Grant updated City Council on the Master Thoroughfare Plan. This plan will be included in the comprehensive plan.

Shoreline Director Brandon Hill updated City Council on current projects and preliminary statistics on the Shoreline Survey. More than 400 people participated in this survey!

The City Council approved the first reading of a Specific Use Permit to allow for the expansion and operation of an "outdoor amusement" park at 1201 Padre Blvd.

The City Council approved an agreement between the United States Army Corps of Engineers, the United States Geological Survey and PARTRAC GeoMarine, Inc. to explore a particle tracing survey on the current sand material being placed in the nearshore berm. This will show where the sand is naturally moving on the beach.

The City Council approved the purchase of four air handlers for City Hall in the amount of \$101,287. This purchase is part of the Preventative Maintenance Reserve Study approved in 2017.

The City Council approved Resolution No. 2018-14 requesting the State of Texas and the Texas General Land Office annually set aside a portion of the Gulf of Mexico Energy Security Act funding to cities. This resolution will allow the City to receive funds that could improve coastal conservation, coastal programs and strengthen and restore our coast.

SPJ Skatepark

The Parks committee is fundraising for revenue to be used to construct a skate park at Tompkins Park. We are asking you to join us and be a part of the newest recreational attraction. Your sponsorship of the new skatepark will link you or your company directly with this fun and active new landmark.

Currently, the City has a GoFundMe page for donations and sponsorships.

Click or scan the QR Code to donate and view sponsorship opportunities.

Mobile Food Units

The Council passed the final reading of an amendment to Ordinance No. 18-15 Chapter 10, Section 10-31(C)(2) to add an additional six Mobile Food Unit Permits for a total of twelve permits allowed.

DMAIC update

Information Technology Director Mark Shellard presented a DMAIC update on the Computer Replacement Plan approved in 2017.

This year, 20 computers have been replaced with plans to replace three more.

View the May 16 recorded meeting here

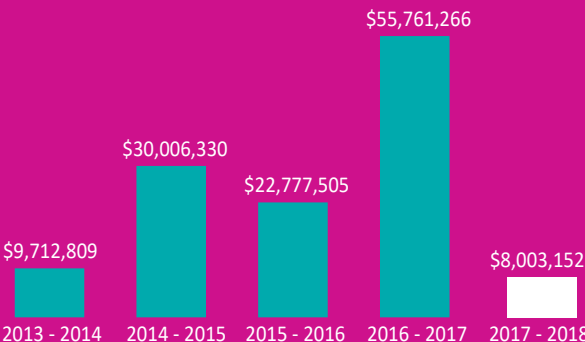

What's a DMAIC?

DMAIC is a strategy used to improve processes. It is an integral part of a Six Sigma initiative, but in general can be implemented as a standalone quality improvement tool or as part of other process improvement initiatives. DMAIC is an acronym for the five phases that make up the process:

- **Define** the problem, improvement activity, opportunity for improvement, the project goals, and customer requirements.
- **Measure** the current process performance.
- **Analyze** the process to determine the root causes of poor performance.
- **Improve** the process performance by addressing and eliminating the root causes of poor performance.
- **Control** the improved process.
