**Animal safety facts: Injuries caused by animals are the second most frequent cause of emergency room visits each year.**

- There are 5+ million incidents involving animals annually.
- 70% of dog bites are to children under 10 years of age, and 77% of the bites are to the facial area.
- 77% of dog bites are from dogs owned by family and friends and take place in a familiar area.
- 65% of serial attacks and 79% of rampage attacks (biting multiple people during one occurrence) are committed by Pit Bull breeds and Rottweilers.

### E. coli O157:H7

Escherichia coli, better known as E. coli, are a large group of bacteria. Although most strains of E. coli are harmless, some can make you very sick. One strain, E. Coli O157:H7 (STEC) is commonly discussed in the media in association with food poisoning outbreaks, because its effects can be extremely severe.

Sources: Eating raw or undercooked ground beef or drinking unpasteurized beverages or dairy products.

Prevention: Wash your hands, cook meat (especially ground meat) and poultry thoroughly; avoid unpasteurized dairy products, juices or ciders; keep cooking surfaces clean and prevent cross-contamination. Also, don't swallow water when playing or swimming in lakes, ponds, streams or pools.

## Earth Day Electronic Recycling Event Scheduled

The City of South Padre Island Environmental Health Services Department (EHSD), in partnership with Republic Services and RDA Technologies, are hosting an Earth Day Electronic Recycling Event on Saturday, April 21 from 8 a.m. to 11 a.m. at the Community Center, located at 4501 Padre Boulevard.

According to Earth Day Network, more than 50 million tons of electronic waste (e-waste) is generated each year in the United States and only 20-25 percent of the waste is responsibly recycled. The goal for EHSD and their partners is to provide an opportunity for safe and responsible recycling of obsolete, unused, or unwanted electronics.

“This is a great opportunity to properly dispose of your electronics,” said Susan Guthrie, city manager. “The community will benefit from this event to reduce waste and the negative impact that irresponsible disposal may cause.”

Bring all your electronics and regular recycling to this one-stop Earth Day Electronic Recycling Event. For further questions contact the EHSD at 956-761-8123.

Work done in chemical room	25	35
Totals :	150	345

## **Tips to Prevent Mosquito Bites**

Using the right insect repellent and other preventive actions can discourage mosquitoes, ticks and other biting insects from landing on you. Here are tips for other preventive actions you can take against mosquitoes.

### **Remove Mosquito Habitats**

- Eliminate standing water in rain gutters, old tires, buckets, plastic covers, toys, or any other container where mosquitoes can breed.
- Empty and change the water in bird baths, fountains, wading pools, rain barrels, and potted plant trays at least once a week to destroy potential mosquito habitats.
- Drain or fill temporary pools of water with dirt.
- Keep swimming pool water treated and circulating.

### **Use Structural Barriers**

- Cover all gaps in walls, doors, and windows to prevent mosquitoes from entering.
- Make sure window and door screens are in good working order.
- Completely cover baby carriers and beds with netting.

### **Avoid Getting Bitten**

- Keep mosquitoes away from exposed skin by wearing long-sleeved shirts, long pants, and socks.
- Tuck shirts into pants and pants into socks to cover gaps in your clothing where mosquitoes can get to your skin.
- Stay indoors at sunrise, sunset, and early in the evening when mosquitoes are most active.
