Tips for Traveling

1. When you cross state lines with your dog, you should always have a health certificate ensuring your dog is up to date on shots and is healthy to travel.

2. Your dog should be <u>microchipped</u> and have a collar with updated information available. 3. When you're choosing a

hotel, research dog-friendly places and let them know you are bringing your pup 3.Plan frequent breaks.

Dogs need to stretch their legs just like we do! Have poo bags ready. This is also a good time to give your dog a drink of water.

7. If your dog is prone to motion sickness, talk with your vet beforehand about medication you can give your dog to help him feel better while traveling.

8. Finally, make sure your dog is safe in the car. Either crating your dog while driving or locking him into a doggie seat belt ensures your safety as well as your dog's. If you stop short, your dog becomes a missile if he isn't secured into the car.

Staphylococcus aureus

Staphylococcus aureus (staph) is a type of bacteria that's commonly found on the skin, throats and nostrils of many healthy people and animals. Therefore, it usually doesn't cause illness unless it is transmitted to food products where it can multiply and produce harmful toxins. Staphylococcal food poisoning can cause many of the same symptoms as other foodborne illnesses, such as nausea, stomach cramps, vomiting or diarrhea. The bacteria can also be found in unpasteurized dairy products, salty foods such as ham and other sliced meats, or in foods that require no cooking, such as puddings, prepared salads or sandwiches. Staphylococcal toxins are heat resistant, which means they cannot be destroyed by cooking.

Sources: Foods that are made or come in contact with the hands and require no additional cooking are at highest risk, including: Salads, such as ham, egg, tuna, chicken, potato and macaroni

Bakery products, such as cream-filled pastries, cream pies and chocolate éclairs

Sandwiches

Prevention: Wash hands with soap and water, do not prepare or serve food if you have a nose or eye infection or if you have wounds or skin infections on your hands or wrists. Keep the kitchen area clean and keep food out of the danger zone by cooling foods immediately in wide, shallow containers and refrigerating them.

Retiring Old Glory Ceremony scheduled

South Padre Island, TX, Feb. 12, 2018: The City of South Padre Island Environmental Health Services Department and Fire Department invites the community to a Retiring Old Glory Ceremony to be held Monday, Feb. 19 at 6 p.m. at the Convention Centre parking lot, located at 7355 Padre Blvd.

When the United States flag (Old Glory) becomes worn, torn, faded or badly soiled, it becomes an unserviceable flag and should be "retired" with all the dignity and respect befitting our nation's flag.

"The purpose of this event is to ensure the proper retirement of the American flags," said J. Victor Baldovinos, Environmental Health Director. "This is a great event to honor our flag and what it stands for."

The City and local Cub Scout Pack 59 and Boy Scout Troop 59 will retire more than 400 American flags at this ceremony.
