SPI enhancing traffic flow during March

South Padre Island, TX. Feb. 28, 2018: The City of South Padre Island has designated East Sunset Drive as a one-way (eastbound) street to improve traffic flow during Spring Break. Beginning on March 1 through March 31, vehicle traffic shall move in an eastbound direction on East Sunset Drive from Padre Boulevard to Gulf Boulevard.

Last year, the City noticed a disruption on East Sunset that hindered two-way traffic flow. Parking will be allowed on East Sunset Drive and vehicles should park facing eastbound.

"Spring Break brings increased vehicle traffic that could disrupt emergency service vehicles," said Susan Guthrie, city manager. "Signage will be installed on the street to remind the community."
