## Responsible Pet Ownership

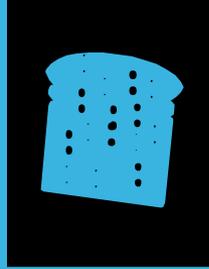

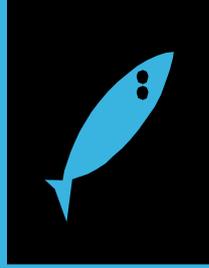

1. Commit
  - To the relationship for the life of your pet(s).
  - Properly socialize and train your pet.
2. Invest
  - Make sure your pet receives preventive health care (vaccinations, parasite control, etc.), as well as care for any illnesses or injuries.
3. Obey
  - Clean up after your pet.
  - Obey all local ordinances, including licensing, leash requirements and noise control.
4. Identify
  - Make sure your pet is properly identified (i.e., tags, microchips, or tattoos) and keep its registration up-to-date.
5. Limit
  - Don't contribute to our nation's pet overpopulation problem: limit your pet's reproduction through spay/neuter, containment or managed breeding.
6. Prepare
  - Make alternate arrangements if you can no longer provide care for your pet.

### Listeria monocytogenes

Eating food contaminated with *Listeria monocytogenes* bacteria causes listeriosis—a serious infection that primarily affects individuals who are at a high risk for food poisoning: older adults, pregnant women, young children and people with weakened immune systems. *Listeria* can grow at refrigerator temperatures where most other bacteria cannot.

**Causes:** *Listeria* is found in refrigerated, ready-to-eat foods, such as hot dogs and deli meats, unpasteurized milk and dairy products, and raw and undercooked meat, poultry and seafood.

**Prevention:** Cook all foods to proper temperatures and reheat pre-cooked foods to 165°F; wash raw fruit and vegetables before peeling, cutting or eating; separate uncooked meats and poultry from foods that are already cooked or ready-to-eat; wash hands thoroughly; store foods safely at appropriate temperatures; and maintain a clean refrigerator, kitchen area and wash reusable grocery totes regularly.

## April 2018

### [Report a Litterer](#)

Even after more than 25 years of the Don't mess with Texas® campaign, litterbugs still roam the roadways, tossing trash from their car windows and letting litter fly out of their truck beds. We're talking about cigarette butts, fast food wrappers, and the like. They're small, but they're still trash.

April	4/7/2018	4/16/2018	4/21/2018	4/26/2018	4/28/2018	Totals
Plastic #1 & #2	295	100	260	400	100	1,155

Lightbulbs	52					52
Phonebooks					125	125
Ink cartridge	9					9
SPI Brush		81				81

### HERE'S WHAT TO DO

#### 1. KEEP ALL HANDS IN THE VEHICLE AND TAKE SOME NOTES

When you see litter thrown or flying out of a vehicle, intentionally or accidentally, take down the following information—license plate number, make and color of vehicle, date and time, location, who tossed the litter, and what was tossed; be as accurate as possible and submit:

<http://www.dontmesswithtexas.org/get-involved/report-a-litterer/>

#### 2. NOW WHAT HAPPENS?

TxDOT compares the information through the Department of Motor Vehicles registration database, and when an exact match is located, we send the litterer a Don't mess with Texas litterbag along with a letter reminding them to keep their trash off of our roads.

And you can feel good about doing something to clean up our beloved Lone Star State.

## Tips to Prevent Mosquito Bites

Using the right insect repellent and other preventive actions can discourage mosquitoes, ticks and other biting insects from landing on you. Here are tips for other preventive actions you can take against mosquitoes.

### **Remove Mosquito Habitats**

- Eliminate standing water in rain gutters, old tires, buckets, plastic covers, toys, or any other container where mosquitoes can breed.
- Empty and change the water in bird baths, fountains, wading pools, rain barrels, and potted plant trays at least once a week to destroy potential mosquito habitats.
- Drain or fill temporary pools of water with dirt.
- Keep swimming pool water treated and circulating.

### **Use Structural Barriers**

- Cover all gaps in walls, doors, and windows to prevent mosquitoes from entering.
- Make sure window and door screens are in good working order.
- Completely cover baby carriers and beds with netting.

### **Avoid Getting Bitten**

- Keep mosquitoes away from exposed skin by wearing long-sleeved shirts, long pants, and socks.
- Tuck shirts into pants and pants into socks to cover gaps in your clothing where mosquitoes can get to your skin.
- Stay indoors at sunrise, sunset, and early in the evening when mosquitoes are most active.
