**NOTICE OF SHORELINE TASK FORCE/CITY COUNCIL JOINT WORKSHOP
CITY OF SOUTH PADRE ISLAND**

Wednesday, June 1st, 2022

I. CALL TO ORDER.

The Shoreline Task Force and City Council of the City of South Padre Island, Texas, held a joint workshop on Wednesday, June 1st, 2022, at the Municipal Complex Building, 2nd Floor, 4601 Padre Boulevard, South Padre Island, Texas. City Mayor Patrick McNulty called the meeting to order at 4:00 p.m. A quorum was present with Mayor Patrick McNulty, Mayor Pro-Tem Kerry Schwartz, City Council Members Joe Ricco, Ken Medders, and Lydia Caballero along with, Shoreline Task Force Chairman Robert Nixon, Task Force Vice Chairman Stormy Wall, Task Force Members Abbie Mahan, Michael Sularz, Carol Bolstad, and Todd Williams.

City staff present included: City Manager Randy Smith, City Attorney Ed Cyganiewicz, Police Chief Claudine O’Carroll, City Secretary Angelique Soto, Shoreline Director Kristina Boburka, Coastal Coordinator Erika Hughston, and Public Information Coordinator Selena Trevino.

II. PLEDGE OF ALLEGIANCE.

Mayor McNulty led the Pledge of Allegiance.

III. PUBLIC COMMENTS AND ANNOUNCEMENTS:

City Council Member Medders requested a moment of silence.

IV. REGULAR AGENDA

I. DISCUSSION REGARDING VEHICLE AND TRAILER PARKING ALONG GULF BOULEVARD. (SHORELINE TASK FORCE)

The joint workshop discussed two main priorities including oversized vehicles taking up more than one parking spot on Gulf Boulevard and a possible time limit implementation for overnight or twenty-four hour parking on Gulf Boulevard. Public Comments were given by Erica Lerma and Stacy Revelds addressing a lack of parking and that public parking should remain fully open. Further discussion will be presented after a collection of research obtained throughout peak season.

V. ADJOURNMENT.

There being no further business, Mayor McNulty adjourned the meeting at 4:50 p.m.

RE: Fiscal Year 2023 Beach Maintenance Reimbursement Application

Dear Ms. Maynard,

Please find the completed application for participation in the Fiscal Year 2023 Beach Maintenance Reimbursement (BMR) Program attached. Included with this application are detailed explanations of the City's methods to clean our beach, as well as Resolutions No. 2022-XX and 2022-XX which:

- Authorizes the application for funds and vests the City Manager with full authority to act for the purpose of this program;
- Defines the scope of responsibilities the City Council has that is similar to that of a beach park board; and
- Details the list of equipment rates to be charged per hour. Equipment rates do not include labor, which will be based upon the City's salary/benefits package per employee; nor does the equipment rate include the costs associated with the rental equipment.

The City of South Padre Island's beach cleaning and maintenance is consistent with our Beach and Dune Plan. The Shoreline Department will provide and maintain over four hundred (400) trash receptacles on the public beach. The trash receptacles are 55-gallon plastic drums. Furthermore, the City is familiar with the regulations contained in Section 15.8 of the State's Beach Access and Dune Protection Plan and the City is in compliance with said regulations. We currently do not collect beach user fees; however, we are aware of the rules pertaining to this matter in the event we choose to collect those fees. The City's Beach Cleaning Proposal, which summarizes the maintenance activities performed by the City, is also included.

Also enclosed are copies of Google maps designating the locations and linear footage of the beaches maintained by the City as well as site maps of beach parks within the City: Gulf Circle and Treasure Island.

If you have any questions regarding this matter, please do not hesitate to reach out to me.

Sincerely,

Kristina Boburka
Shoreline Director

City of South Padre Island FY 2022 Beach Cleaning / Maintenance Operations

The beach maintenance conducted by the City of South Padre Island is limited to the five miles of public beach that is within the City limits. The City strives to keep our beaches clean for the public and visitors while having as minimal impact as possible on the natural processes that make up our beach.

The removal of all non-natural material that washes up or is left on our beach is picked up by hand each morning. These patrols are done on a daily basis, seven days a week. During the summer, two to three employees work in two shifts spanning from 6 a.m. until 8 p.m. to address any trash concerns that accumulate throughout the day. When there are large volumes of trash, such as Texas week during spring break, the City hires temporary personnel and increases the number of employees on foot patrol to 12 people. The employees are transported onto the beach by a half-ton pickup, one-ton stake truck, or UTVs. All trash collected is hauled off the beach to a transfer station where the garbage is consolidated and later picked up by the waste disposal company. The City provides over 400 trash barrels on the beach and another 100 at the beach accesses which are checked on a daily basis by the Shoreline Department employees in a one-ton garbage truck with beach trash compactor. The collected trash is also transported to the transfer station. When large objects wash ashore, they are hauled off in trucks and disposed of properly. The use of a mechanized, sand-sifting rake for removal of trash or natural debris is employed only when the debris reaches a quantity that inundates the natural system or disrupts the use and accessibility of the public beach. This method allows the minimal impact to the sand substrate and does not highly exacerbate erosion.

The City's public beach is not groomed to preserve aesthetics. The sand is only repositioned when low lying walkovers have an accumulation of sand that impedes the public's access on and off the walkover. The City is also making efforts to phase out the low lying walkovers by replacing them with access matting or by building taller and wider walkovers to allow for dune growth.

The repositioning of Sargassum is only done when it is necessary and when it typically lands from March through June. The City's procedure during this time of higher than normal accumulation is to use a tractor and Surf Rake and is typically completed within three hours. During periods of extreme Sargassum accumulation, the number of tractors is increased to two and the time on the beach up to six hours. The front end loaders used on the beach have a rake on the back end that drags and collects the Sargassum into a pile. The tractor then turns around and picks up the Sargassum in a bucket where it is front-stacked at the base of the foredune, above the annual high tide line, at locations where there is a need to strengthen the dune system. The Sargassum is also back-stacked behind the primary dunes to help give support to the dune system. The Sargassum is kept in the beach/dune system and is never removed from the beach.

If/when the City experiences unusually extreme amounts of seaweed, the City now owns one dump truck but may rent one front-end loader to haul the seaweed to the north end of the City's beach where property owners have requested more seaweed to help develop their dunes or other locations within the City's dune system where it is needed.

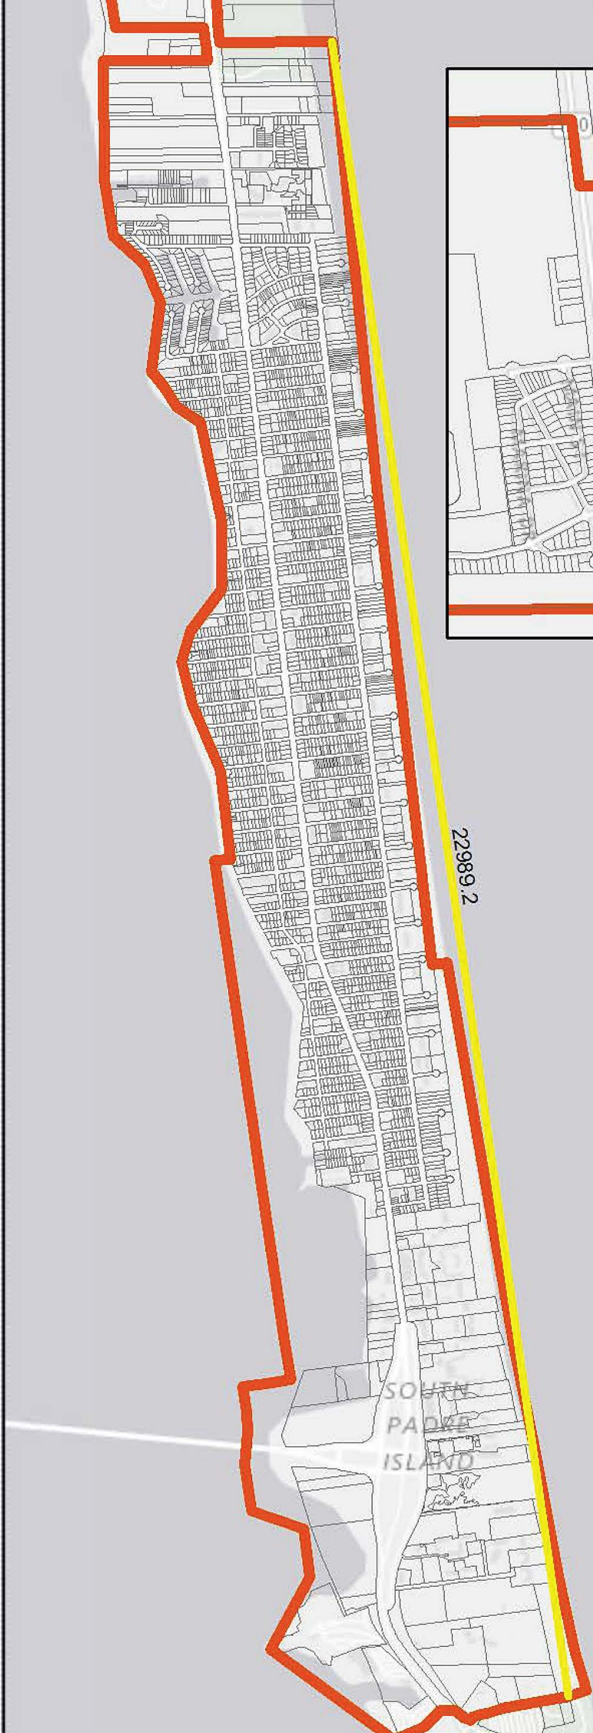

Public Works is responsible for cleaning and maintaining the bathrooms for the two beach parks within the City. This task is performed by one custodial employee from Public Works each day of the week with enhanced service during the busy months of March through September when two custodians are utilized.

The Police Department and the Code Enforcement Division are both responsible for assuring that all City and State laws are enforced on the City's beach. Other than assuring the safety of our residents and visitors, some common items of enforcement include:

- No glass on the beach;
- No sales activities on the City beach;
- No vehicles allowed on the beach (other than authorized/permitted vehicles);
- No open fires or fireworks, unless they are permitted;
- The requirement that dogs must be on a leash at all times; and
- Regulating beach and umbrella vendors.
