RE: Support for the City of South Padre Island CEPR Cycle 11 Funding for the Beneficial Use of Dredge Material

This letter is in support of the application submitted by the City of South Padre Island, Texas for funding through the CEPR Cycle 11 program.

The City of South Padre Island sits at the southern tip of a unique Texas Barrier Island. It is a densely developed tourist destination directly juxtaposed against some of the most pristine beaches on the Texas shoreline.

The City has experienced significant beach erosion and narrowing of the public beach in recent years. Assistance through this program will help the community to utilize the beneficial use of dredge material from the Brazos Santiago Pass to stabilize our beaches. The economy and the quality of life on South Padre Island are dependent upon the stabilization of the public beach with beach re-nourishment projects and dune restoration.

I feel this is very worthy of funding not only because of the nature of the project proposed, but because of the level of expertise, experience, and record of success with projects in the past. This project, if funded, will be conducted with efficiency and be looked upon after completion as "money well spent."

The re-nourishment of our beaches on South Padre Island is vital for the community and the state of Texas. I pledge my support for this project and thank you in advance for your consideration of this application. If needed I can be reached: _____.

Sincerely,
