

City of South Padre Island

Randy Smith, City Manager

Patrick McNulty, Mayor

Future special event permitting

South Padre Island, Tx, March 14, 2020:The City of South Padre Island has been in constant communication with Cameron County officials regarding special events. It was decided to suspend the issuance of any new special event permits for the next 14 days.

We are asking all businesses and events to follow protocols as prescribed by the CDC and the Texas State Department of Health.

We strongly recommend that our local business leaders exercise their best judgment with respect to their individual venues and events.

Spring Break is an annual occurrence throughout the Island and the City is not hosting or sponsoring any events held by private businesses. The City of South Padre Island should not be utilized to absolve or excuse individuals or business owners of their responsibility to themselves, patrons and the public at large.

The City of South of Padre Island is continuing to work with Cameron County in safeguarding the community of South Padre Island.
