SPI launches financial transparency portal

South Padre Island, TX, June 15, 2018: The City of South Padre Island has launched an online financial transparency portal. This portal provides multiple years of information that furthers the accountability of the City's financial operations.

Within the next month, performance data metrics will be added and updated on a regular basis. Users can gauge the City's performance in key areas and will have a better understanding of how the City is serving the community.

"The online portal reflects the City's commitment to maintaining transparency by providing information that is meaningful and easy to understand," said Susan Guthrie, City manager. "Also, the metrics will be used as a resource for best practices, policies and to create an opportunity to explore how to address specific challenges."

Visit www.myspi.org and click the "Transparency" button on the left side of the page to view the City's financial portal.
