

The Island Way

South Padre Island is in the process of updating its plan for the future, "The Island Way – South Padre Island's Comprehensive Plan." This plan is a collective effort between the residents, the City Council, staff and all associated stakeholders to chart the course for South Padre Island's future growth.

The City held the first public workshop for the plan on May 1 and members of the public were able to speak with Council Members, staff and Kimley-Horn consultants. This interactive workshop allowed attendees to tour different stations and let their voices be heard!

We encourage you to participate in the South Padre Island comprehensive planning process: The Island Way. This plan will bring together all the ideas in our community to create a shared vision for our future.
