County Public Health Confirms COVID-19 Travel-Related Vacationers

South Padre Island, TX, March 18, 2020: The Cameron County Public Health Department has confirmed that a couple from Michigan who vacationed at South Padre Island have tested positive for COVID-19 after traveling to Idaho for a wedding.

A husband and wife in their late 60s recently stayed on the Island for a few months and returned home to Michigan around March 11, 2020. While staying on the Island, the couple traveled to Idaho for a wedding where they were in contact with someone who had tested positive for COVID-19. Upon returning home, the couple’s symptoms worsened and were tested and diagnosed in Michigan.

The City of South Padre Island and Cameron County are working together to safeguard the community.
