

ATTENTION!!! ATTENTION!!! ATTENTION!!!
NOTICE OF POSSIBLE WEATHER DELAYS

February 12, 2021

To All Municipal and County Customers,

First and foremost, we thank you for the opportunity to serve each of your communities and look forward to continuing our priority of keeping your cities clean. Republic Services prides itself on safety and desires for each of our drivers to provide services to your communities in the safest manner possible. At this time, as you are much aware, there is a potential for serious inclement weather on Monday, February 15, 2021. Republic Services would like to notify each of our municipalities and counties in which we provide MSW services for Residential and Commercial accounts, Brush/Bulky Services and Industrial Roll-off Services that the possibility of delays due to inclement weather on Monday is **highly possible**. With expected freezing weather, and increasing changes of roads being iced over, beginning routes on a timely manner may not be possible. We would like to inform you all that we will continue normal operations as soon as the weather allows us to continue to operate should there be a delay caused by such weather. Therefore, we are providing you this notice to inform you all in advance so that communication between the municipality, their inner departments and its residents and commercial customers are all fully aware of this possible delay in services. Please have your residents leave their carts out as we will be by at some point to resume services as soon as we are safely allowed to. Stay safe!

Sincerely,

Omar Rodriguez

Municipal Sales Manager
Republic Services, Inc.
