Island Metro Transit Bus Shelter Project

The City of South Padre Island is proud to announce that Island Metro's Bus Shelter improvements have been completed. This project contributed to the addition and renewal of 17 bus shelters across South Padre Island and Port Isabel.

Island Metro is pleased to inform the community that this project's total cost was \$353,981 and was 100% grant funded, and no local match was required. This project was completed before schedule and under budget. The construction in both cities has been completed, and the stops are now available for passengers to enjoy.

Those interested in using the Island Metro can view the bus route map [here](#) and a description of where the bus routes operate [here](#).

Island Metro is a FREE deviated fixed-route system that operates within the City of South Padre Island and Port Isabel and has been developed by the South Padre Island City Council with the input of our drivers and passengers, as well as citizens and business persons on both sides of the Memorial Queen Isabella Causeway.
