BACKGROUND & CURRENT CIRCUMSTANCES

A. BACKGROUND

An election was held on November 8, 2016 where the voters authorized the City of South Padre Island (City) to provide for the planning, design, improvement, and development of a sports and community venue project. The City has a signed lease with a property owner to develop a Wind and Water Sports Venue (Venue) on the north end of the City. This Venue will increase access to the Laguna Madre for quiet water sports such as kiteboard and windsurfing, while decreasing wetland damages.

Over the past several years, the City has developed the design for the Venue and has been working on the permitting for the United States Army Corps of Engineers (USACE). Multiple biological assessment revisions have gone through the USACE Corpus Christi permitting office for review, with additional comments each round. In 2022, it was determined preservation of the site would not suffice as mitigation and a formal mitigation area and plan would need to be submitted. The City purchased land in 2024 for mitigation use.

B. CURRENT CIRCUMSTANCES

A USACE permit application was submitted in 2020 (SWG-2018-00232). An alternative analysis was completed in 2022 for submission, work on the mitigation area has been ongoing, and the design layout has been amended to reduce impacts multiple times. In March 2024, the City received a letter from the USACE notifying that the permit application has been withdrawn.

SCOPE OF WORK

The design of the Venue has been finalized; please reference the site plan overlay attached in **EXHIBIT A**. The City is seeking professional services to complete all aspects of the permitting process and for construction and mitigation oversight. Services that fall under those tasks may include but are not limited to conducting a wetland delineation, compiling and finalizing the mitigation plan and biological assessment, resubmission of permit applications (USACE, GLO lease, GLO beach/dune), responding to any public and/or interagency review periods, coordination with the United States Fish and Wildlife Service (USFWS), and communication with any and all state and federal agencies. Finalizing all required permits will be crucial in the next steps of this project. Close communications with the USACE Corpus Christi office will be required to ensure permitting efforts are continuous.

Once permitting is approved and completed, the selected Firm will provide support for construction bidding and oversight as well as mitigation implementation and monitoring, as per the approved permits.

SUBMISSION REQUIREMENTS

The City will not accept oral proposals, or proposals received by telephone or FAX machine. Proposals must be prepared simply and economically, providing a straightforward, concise description of Proposer's ability to meet all requirements and specifications of this RFQ. Emphasis should be focused on completeness, clarity of content and responsiveness to all requirements of this RFQ.

The SOQ must be submitted in hard copy. The Proposer shall submit one original and two copies of the entire proposal, plus one digital copy (on CD, DVD, or thumb drive).

The City of South Padre Island requires comprehensive responses to every section within this RFQ. To facilitate the review of the responses, Respondents shall follow the described format. The intent of the proposal format is to expedite review and evaluation. It is not the intent to constrain Respondents with regard to content, but to assure that the specific requirements set forth in this RFQ are addressed in a uniform manner amenable to review.

Any SOQ that does not meet all of the minimum requirements contained herein will be considered non-responsive and will not be evaluated. These minimum requirements are considered pass or fail criteria and includes:

- 2. Certification must be signed and returned with SOQ; including acknowledgement of any addenda issued.**

SOQs that pass the minimum requirements listed above will be evaluated, rated, and ranked, in accordance with the criteria provided below. The City may request additional information, site visits, interviews, or presentations from the Firm as part of the evaluation process.

A copy of the City's Standard Form of Agreement is attached to the RFQ. Please provide any comments or change requests to the Agreement with the proposal submittal. Failure to submit requested changes will affirm that the Firm is willing to execute the Agreement without modification.

EVALUATION & SELECTION PROCESS

The City has attempted to provide a comprehensive Request for Qualifications through this solicitation for the work described herein. Written proposals must present Proposer's qualifications and understanding of the work to be performed. Respondents are asked to address each evaluation criteria and to be specific in presenting their qualifications. Proposals must be as thorough and detailed as possible so that the City may properly evaluate capabilities to provide the requested services.

The City will first select the most highly qualified provider for the services on the basis of demonstrated competence and qualifications; and then attempt to negotiate with that provider a contract at a fair and reasonable price. If a satisfactory contract cannot be negotiated with the most highly qualified provider for the services, the City will formally end negotiations with that provider; select the next most highly qualified provider; and attempt to negotiate a contract with that provider at a fair and reasonable price. The City will continue this process to select and negotiate with providers until a contract is entered into.

The City has established specific, weighted criteria for selection. This section presents the evaluation criteria, description, and relative weight assigned to each (100 points maximum). The City will evaluate each Proposer's responses to the requirements contained in this RFQ.
